# Still using InfoPath & feeling like you are on a sinking ship?

7 Reasons why NITRO Studio is the InfoPath replacement tool you have been looking for.

NITRO STUDIO™
Crow Canyon Software

INFOPATH

1. Comes with a powerful WYSIWYG Forms Designer and Workflow Engine.
Easily replace and improve on InfoPath forms.

2. Easy-to-use & low-cost.
Get going creating forms and workflow solutions that replace InfoPath forms right away.

3. Provides a migration path for replacing InfoPath.
NITRO eases the transition off InfoPath with a clear migration path and strategy.

4. Developed specifically for SharePoint.
Other solutions work with a range of Microsoft products and end up cluttered with extra components not needed in SharePoint.

5. Includes Portals, Teams Integration, and Chatbots.
It is also mobile-friendly, with all components ready-to-go on smartphones and tablets, as well as desktops.

6. Can be used both for SharePoint on-premises and Office 365.
No need for data gateways or advanced versions.

7. Delivers a high-level of personal support.
We provide training, workshops, and one-on-one sessions, with personal attention to your needs.
