

5 Easy Steps to MOVE OFF SHAREPOINT 2010 WORKFLOWS

1

KNOW what workflows you have

Use SharePoint Modernization Scanner to detect workflows.

2

ASK if you need this workflow anymore

Don't migrate workflows that are no longer in use.

3

CONSIDER if you can improve the process

Look for ways to add value with updated technologies.

4

PLAN the workflow migration project

Schedule resources and time to migrate the workflows.

5

BUILD NEW workflows using

Create NITRO workflows to replace SharePoint workflows.
