

3 Internal Processes Banks Can Automate Today!

1

Replace Outdated Paper Forms

Eliminate the delays, errors and expenses of paper

Speed, accuracy and economy of automated workflows

Reduce mundane tasks for your bankers and finance staff while increasing accuracy

2

Automate Manual Routing Processes

Easily replace outdated systems for business processes

Improve compliance operations, and data migration due to acquisitions, data reconciliation, and bad-debt write-offs

Increase communication between bank branches

3

Streamline Ongoing Requests

Increase finance staff productivity and customer satisfaction

Streamline the wide range of ongoing requests – including loan applications, bank account creation and updates, inquiries and disputes

Apps Our Banking Customers Are Using

Customer Service

Provide superior customer service for your individual and business customers by efficiently handling support inquiries, from initial request to resolution.

IT Help Desk

Resolve tickets quickly, reduce downtime, and increase end-user satisfaction. Lower your operational costs while keeping your staff productive and focused.

Contract Management

Save time and money in your financial institution by keeping your tech, assets, and equipment contracts / renewals organized and secure.

Facilities Management

Utilize an organized central system for tracking and resolving maintenance requests. Keep your employees safe with up-to-date compliant facilities.

Onboarding

Automate the onboarding of incoming staff members to ensure all tasks are completed in a coordinated manner and adhere to your protocol.
