CORE COMPETENCIES

Crow Canyon Software is a small business enterprise that delivers automation solutions for Microsoft SharePoint and Office 365. We provide out-of-the-box applications that meet a wide variety of business needs as well as our NITRO Studio™, a no-code/low-code “forms and workflow” development platform where power users can easily create their own solutions.

Our products turn Microsoft SharePoint and Office 365 into highly useful and practical tools. With mobile and cloud friendly interfaces, customizable forms, and powerful workflows, our solutions efficiently and effectively meet an organization’s needs.

APPLICATIONS

- Help Desk & Service Center
- Work Order Management
- Asset & Equipment Tracking
- Purchase Requests
- HR Requests & Onboarding
- Contract Management

NITRO STUDIO

- Forms & Workflow Solution
- Reports & Dashboards
- Portal Interfaces
- InfoPath Replacement
- No-code/Low-code Environment
- Mobile and Cloud Friendly

Our products run on SharePoint 2016, SharePoint 2019, SE, Office 365, & Teams.

DIFFERENTIATORS

We are deeply experienced in both application development and the Microsoft platform. We understand what it takes to automate business processes. We have been working with SharePoint and Office 365 since they were first delivered. We have extensive subject matter expertise on how to leverage these platforms to the best ability for our customers.

- Over 25 years' experience building applications on the Microsoft Platform
- Microsoft Preferred Partner for Business Applications
- Highly regarded support team
- Quick turnaround of custom projects
- Focused engagement to drive customer success

With over 25 years of reliability, Crow Canyon Software has shown its ability to improve efficiency, reduce costs, and streamline operations at organizations around the world.
